Mayor Michael Bloomberg City Hall New York, NY 10007

Dear Mayor Bloomberg,

Flushing Meadows-Corona Park (FMCP) is threatened by corporate interests who want this valuable public asset for their own private gain at the expense of the largely working class, immigrant population of Queens. Currently private interests are lobbying city and state officials for rent-free public parkland.

The three proposed plans include:

- A 1.4 million square foot MALL on parkland would be largest in NYC
- 2 new stadiums and concert venues on parkland
- Several parking garages and new roads inside the park
- 13,000 additional parking spaces in the park and in its surroundings

Most alarming, these three proposals are concurrent, yet there has been no public acknowledgment by the city or any of the applicants of the potential cumulative impacts of these multi-billion dollar demolition and construction projects.

Please protect parkland at FlushingMeadows-CoronaPark!

We ask that all new uses or proposed redesigns in the area of FlushingMeadowsCoronaPark are undertaken in a fair and responsible manner to include a process for local resident and community stake holder input.

## Sincerely,
